

## **iAccelerate Companies expressing interest in 3rd year media student interns.**

### **Health Ready**

Brad at Health Ready goes to the top of the list because he has paid employment on offer. He seems quite happy to hear from 3rd Year Students for this position as well as students interested in an internship. Perhaps a chance to get in at the ground floor of a growing startup?

A brief description but more information and job description attached at the end of this document;

We are offering a Marketing and Social Media Co-ordinator role to a digital media whiz passionate about leveraging social channels to engage, build communities and make a difference for everyday people. Your inquisitive nature, bravery and creativity will enable you to develop and execute strategies that engage consumers and achieve outcomes. Your willingness to adapt as a result of user and consumer behaviours and your desire to get the job done will accelerate growth for you, customers and the company.

## Skin Revival

Our Company Skin Revival Pty Ltd is an advanced company in the UOW iAccelerate program which is developing Australian made skincare for the Chinese and Southeast Asia markets. Currently our company turns over 2 million in skincare per year and we are looking to grow our team/expand over the coming months.

We are looking for people with experience in the following areas  
Graphic design  
Social Media / Marketing

If you could help us out in this area then that would be great. If you need to chat feel free to call me on 0451534061 or email [Rhett@bodyrevival.net.au](mailto:Rhett@bodyrevival.net.au)

## Planet Footprint

### Whiteboard animation project

Planet Footprint wants to create a whiteboard animation to explain what we do, the problems we solve and create desire for potential clients to want to know more so they contact us. We have done a lot of workshopping – we know the key points we want to get across and have a rough script that needs work. We already have a voice over professional.

What we're looking for:

- a) A scriptwriter to simplify our existing script and add some panache.
- b) A talented **free-hand** whiteboard animator.

So, if you're either a talented script writer or free-hand whiteboard animator, please send me some examples of your work for me to take a look at. Or, if you want to give it a go, I'll send you our rough script and show us a little of what you can do.

An example of what we are looking for: <https://www.youtube.com/watch?v=wDRDS2kiAbE> . The artist we are thinking of using: <https://www.fiverr.com/taaniinbuzz/killer-and-professional-whiteboard-doodle-video-in-my-style-within-24-hours?funnel=38422152-be7e-4b22-ae2e-1b1d331cfee3>

So, if you think you can do a good job, email me. Don't forget to show me some of what you can do.

## **Binary Beer.**

I'm trying to organise a video walkthrough for the life of a beer keg from brewer to tap. I'll be chasing a beer keg from Five Barrel Brewing next Wednesday and I could use a hand from someone that has the kind of inspiration to catch neat footage from different angles etc.

Also looking for a social media intern.

Thanks,

Michael Burton | CEO

## **Evolve Communities**

This sounds like a very interesting one...

Do we need help? YES!! Do we need an Intern? You bet!!!

We need to get cracking on our social media strategy and update our website urgently (with video etc).

Our work is Cultural Awareness & Diversity Training programs. We are currently rolling out programs for the ATO, Dept Env't (nationally) and Cancer Council (NSW). My co-Director Munya Andrews is leading the on-ground delivery.

### **About Evolve**

Evolve provides unique tools and programs for organisations to engage their staff, clients and customers. To do this we draw on ancient Dreamtime knowledge, bringing the wisdom of Indigenous Elders to the forefront.

We help organisations' who need to develop strong relationships with communities, especially Indigenous communities, to solve tough problems together. We do this through cultural awareness training and education programs, executive coaching, community engagement design and supporting educational resources. The ultimate outcome is a win: win for the organization and community, with real differences in people's lives such as closing the gap in disadvantage in health and wellbeing, education and employment.

## **Screen Dopamine (Media Analytics and Marketing)**

Morgan is interested in digital media and marketing intern.

I have more information for interested parties.

and excerpt;

We need a great individual or team that is able to own particular market segments and channels that we put forward. Whether it be producing great videos, articles, images and blogs, each piece of content will then be applied to one of our channels. The goal here is to “crack” each segment and find the channel which is most cost effective and suitable. This generally is slow going at first but as we optimise more and more the channel begins to open up and we get volume. We are completely open to new ideas and will mentor through the process.

PO BOX 598 | WOOLLAHRA | NSW - 2025  
T: +61 (2) 9362 9297 | M: +61 (0) 404 988 144 |

## **Fin15.**

Ideally we want the intern that can create and improve websites, info graphics and social media for our clients. The intern can pitch projects and ideas they think would help and then create, so they need to be able to discuss their ideas, agree on criteria, and produce an end result.

As we build the company we would like to offer them paid positions assuming they develop a passion for our companies mission and values.

They can send their CVs to me or [sunny@fin15.com](mailto:sunny@fin15.com) we are looking for someone with good skills on Photoshop, Canvas, AI, UI and UX.

Wence Peraza  
Head of Growth  
M| 0411 785 593  
E| [wence@fin15.com](mailto:wence@fin15.com)  
P| Level 2, Squires Way, North Wollongong NSW 2500

## **Polygon Door - A Creative Technology Lab**

We could use interns who have a creative technology bent - who aren't scared of electronics and code but who are ultimately interested in aesthetic, creative and conceptual exploration. You don't need to be an expert - but you need to become an expert learner. We are looking for creatives and wild experimentalists more than we are technologists.

We want you if you are passionate about inspiring and supporting creative play. You might spearhead our social media presence, develop website content/video, use our robots to develop educational content, work on our code base, help develop our platforms - hopefully you will take the lead..

We are a young company in an early phase of development so if your keen to put the yards in there is an opportunity to become a part of something as it grows. We may well have paid work for people who can prove themselves with an interest in education and technology and who work well with young kids.

email mat if you are interested..... he is your lecturer/tutor.
